Canberra Liberals announce plan for Gungahlin

The Canberra Liberals have today released a comprehensive plan for Gungahlin that includes upgrades to Yerrabi Pond, funding to improve playing fields and sporting facilities and a standalone police station along with a new joint ambulance and fire station in Casey.

A Canberra Liberals Government will also increase resources for mowing and provide funding for footpath maintenance across the ACT which will be used to fix footpaths in the Yerrabi electorate.

ACT Opposition Leader Elizabeth Lee said the Canberra Liberals announcement today will enhance community infrastructure in Yerrabi and improve cost of living pressures, housing, transport, health and education.

“These announcements put forward by the Canberra Liberals prioritise community needs and ensure that the rates being paid by the people of Yerrabi go directly back into the suburbs where they live, work and play,” Ms Lee said.

Quotes attributed to Leanne Castley MLA

“Canberrans that live in Yerrabi feel constantly left behind by this government.

“The ad hoc way in which infrastructure, maintenance and roads in Gungahlin along with Kaleen, Giralang and Hall have been managed and the lack of detail and attention to our community areas and playgrounds is disappointing. Only the Canberra Liberals will prioritise the suburbs in Yerrabi and restore them to what we had hoped they would be.”

Quotes attributed to James Milligan MLA

“A Canberra Liberals Government will always be committed to delivering sporting infrastructure that meets the needs of Yerrabi and the entire community.

“We will also focus on keeping our community safe by investing in our police force and building the right facilities for our hardworking firefighters and paramedics. The Labor- Greens Government has had plenty of time to get it right but they have been dragging their heels.”
